

# RHD LEDriving XENARC for VW Golf VI

## Up to 70% more light

For better visibility and significantly shorter reaction times compared to standard headlights with halogen lamps

## Up to 20 m longer light cone

For improved visibility and less eye strain compared to standard headlights with halogen lamps

## Up to 40% whiter light

For fatigue-free and comfortable driving compared to standard headlights with halogen lamps

## Switch on the WOW with OSRAM LEDriving head lights

The OSRAM LEDriving XENARC headlights for VW Golf VI. State-of-the-art lightguide technology and the LEDriving XENARC light with pixel-free optic generates a maximum of light on the road: an up to 20 m longer light cone and up to 70% more light than standard headlights with halogen lamps. This means better visibility and more time to react. Road safety also plays a major role. Added to this, is there up to 40% whiter light compared to standard headlights with halogen lamps. The LEDriving XENARC Golf VI headlights allow simple, quick self-installation with plug and play. OSRAM offers a 2 year guarantee on the LEDriving XENARC Golf VI headlights. For precise guarantee conditions please refer to [www.osram.com/am-guarantee](http://www.osram.com/am-guarantee) Note: Upgrading to the ECE-approved LEDriving XENARC headlight complies with all legal requirements - no need to

fit automatic leveling or a headlight-cleaning system. Not for sale in USA.

Legal advice

The LEDriving headlights are fully ECE compliant for a replacement of OEM halogen headlights and therefore registration free. This does not include individual custom requirements of countries, in addition to the standardized ECE certification of the product.

Application advice

For more detailed application information and graphics please see product datasheet.
