

LCD Remote Screen

Compatible with both 12V and 24V Modified and Pure Sine Wave POWERinvert PRO inverters

Works with all OSRAM POWERinvert PRO inverters

Multifunction Readings1. DC Voltage Input2. AC Voltage Output3. Continuous Wattage4. Amp hour

Full picture of how the inverter is performing and the state of health the vehicle's battery

6m of Cable

So it can be mounted in an accessible area away from the inverter

Complemented by the LCD frame (OINVFRM) for secure housing

Bracket provides additional protection to the screen and secure fixing

Accessories for inverter

OSRAM POWERinvert PRO is an extensive range of professional heavy duty inverters for remote working. Available in either Pure Sine Wave or Modified Sine Wave for both 12V and 24V applications. OSRAM POWERinvert Pro inverters take the 12V or 24V DC vehicle electrical supply and invert into 230V AC mains power to run and operate electrical equipment from service vehicles. Pure Sine Wave Inverters produce a sine wave with the same frequency as mains power, with no distortion, to power sensitive electronics. Modified Inverters have distorted frequency, meaning they will power less complicated products such as fridges and power tools.
